1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>The development of any institute depends on a well functioning and organised feedback mechanism. It gives the real picture about the current state and also provide scope for continuous improvement. Amrutvahini Insitute of MBA practices the feedback mechanism in a well structured manner. Feedback is collected from various stakeholders including students, teachers, parents and alumni. Feedback is collected to know about the scope for improvements in areas like academics, administration, infrastucutre, library, sports facilities, cultural activities and various other areas. Students - Student's feedback is taken at the end of every Semester / year. It includes criteria regarding teaching methods / pedagogy, Quality of delivery, Punctuality, Teacher's approach towards students and syllabus completion. When the feedback is not encouraging, the director counsels with the concern faculty and urge him / her for better performance. Teachers - Teacher's feedback is taken at the end of the year. Usually in the staff meeting, the teachers are given freedom to speak wherever there is a scope for improving the academic curriculum. Through feedback teachers are asked about their satisfaction level about , Infrastructure, Library, internet, cleanliness, monetary and non-monetary benefit etc Alumni - Alumni feedback is usually taken when the alumni meet is organised at the institute every year. Sometime it is also taken online. The main intension behind taking feedback from the Alumni is to know the industry requirement and match this with the current academics. It also useful for our students to be industry ready. As alumni are the brand products of our institute, their feedback is given outmost importance. Some of the parameter are about Training Placement cell, Alumni Association and Infrastructure facilities Parents - Parents feedback is taken</p>

when the institute organises Parent Meet every year. As parents are one of the most important stakeholders of the institute, their feedback plays a very important role in the overall development of the institute. The parameter included in parents feedback are quality of teaching, Transport facility, Hostel facility, Canteen facility and admin staff behaviour. After taking feedback from all the stakeholder, different areas for improvement is found out and are discussed in the staff meeting and necessary action is chalked out for further improvement. The purpose of this feedback process is to provide a structure for obtaining, summarizing and analyzing documenting information on the all the stakeholder perceptions of the quality and effectiveness of the Institute's curriculum and for use in program evaluation. All the Stakeholders' feedback are collected and analyzed at department level Overall analysis of the stakeholder feedback report is presented in Internal. Once the feedback is analyzed and valuable suggestions given were considered and necessary actions were executed.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

It is our policy to entertain the hopes and aspirations of students from all over the State - irrespective of caste, sex, religion and financial background. Many of our students from rural areas lack proper academic background and financial back-up. Mentoring of students thus, is an essential feature to render equitable service to all our students having varied background. Student-mentorship has the following aims: 1) To enhance teacher-student contact hours 2) To enhance students' academic performance and attendance 3) To minimise student drop-out rates 4) To identify and understand the status of slow learners and encourage advanced learners 5) To render

equitable service to students The institute has followed the suggestion made by IQAC, Higher Technical Education Dept to introduce the mentoring system. The importance of integrating the system for enhancing students' performance is a common resolution adopted by a meeting of the teaching faculty. The system was promptly and effectively put into practice after it was first resolved in 2017. Design Implementation: The IQAC had taken the initiative of implementing the mentoring of students. Students are categorised based on the streams of studies and also according to their core subjects. They are divided into groups of 10-15 depending on the number of students. Each group is assigned a teacher-mentor who would perform mentoring duties. A Mentoring Format with Guidelines is prepared by the IQAC to ensure uniformity. a. Mentors maintain and update the Mentoring Format which contains space for entering particulars and performance of students (class tests, monthly attendance records, etc.) b. After collecting all necessary information, Mentors are expected to offer guidance and counselling, as and when required. c. It is the practice of Mentors to meet students individually or in groups. d. In isolated cases parents are called for counselling/special meetings with the Principal at the suggestion of the Mentor. e. If a student is identified as having weakness in particular subject, it is the duty of the Mentor to apprise the concerned subject teacher. Evidence of Success Though the system has only been implemented in the last few years, significant improvement in the teacher-student relationship can be seen. The system has been useful in identifying slow learners and advanced learners. Based on the requirement deduced through a careful examination of each Mentor's report, the College has organized several Remedial Classes in the identified topics/subjects for slow learners. Targets achieved The Remedial Classes have been institutionalized after the implementation of the Mentoring System. Need-Based remedial classes have proved to be beneficial to the students in particular and the entire college in general. The institutional practice of Mentoring System has considerably enhanced the campus environment and brought about: a. Enhanced contact hours between Mentors with their respective students b. Improvement in students' attendance records c. Minimised student drop-out rates (apparently due to Mentors' intervention before a student falls short of attendance or has been regularly abstaining from classes) d. Identification of slow learners for conducting Remedial Classes e. Advanced learners identified and encouraged with incentive prizes

While formation of the student council generally all stakeholders of institute are considered. Chairman of the sanstha, trustees, Chief executive officer, Director, Alumni, industry experts, senior faculties of the institute, university students representative of the institute are honourable members of this council. In AIMBA every year the student council is constituted under the guidance of Director, Academic coordinator, HOD's Student Development Officer (SDO) and Class teacher of the institute. The council includes representative of stakeholders as well as student representatives from alumni, first year and second year. After the commencement of Academic of first year, we first appoint University representative and Class Representative for second year and from both the divisions of first year. After this, members of student council is appointed which includes UR, CR of both divisions, one sport representative, one cultural representative and two girl students as a ladies representative. With the help of student council members our Institute conveys all information regarding academics and administrative to all the students of our institute. At AIMBA we also constitute different committees like college development committee, Anti-Ragging committee, Anti Women Harassment committee, Student Grievance Redressal committee, Women Grievance Redressal committee, and SC-ST Committee, OBC and Minority cell. Through all these committees our student takes active participation in administration of our institute to solve all the problems of students regarding academics. For the overall development and ease of students we communicate all the important information to our students through these committees regarding syllabus, Various guest lecturers organized by our Institute, Field visits, Final Dates of Assignment Compliance and Important dates regarding exam so that each and every student can take benefit of all this. The role of student council is also very important in the view of Administrative perspective. AIMBA is taking various initiatives for transparency in Academics, Curricular and Co-Curricular activities. The members of student council actively participate in Institute functioning. Through the regular meetings Institute solves the problems of students. With the help of Anti-Ragging Cell Institute strictly prohibit all the ragging related activities. To promote women empowerment Institute also focuses on various women welfare related activities such as Expert Lectures by Women entrepreneur, women social workers, Lawyers etc. In such session girl students can share their problems easily and they can understand the role of women in the economic and social development of country. The SC, ST and OBC related committees are also formed by our Institute to identify and solve various problems of Reserved Category students such as Non-Creamy layer, cast- validity certificate related issues. Ultimately through all these committees AIMBA focuses on the welfare of students. Through all these

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice 1: Title of the Practice- Practice of "Quest to Know" Sessions by Faculty Objective of the practice: In order to deliver the course in comprehensible and interesting manner with full involvement of the students on one hand and with contents of latest industry practices and examples, involving the use of pedagogy like case studies, role-play, video, discussion etc. on the other, the Practice of "Quest to Know" Sessions by Faculty has been introduced. The Context: Management education is going through a transformation. Given new ages technologies, disposition of the students and external avenues available for learning, the teaching-learning in the B-Schools has got to be made market relevant and interesting. A faculty is expected to updated knowledge and use innovative pedagogy to make it happen. Therefore, it is felt necessary that a faculty should share their knowldeg and experiences related to latest concepts/trends/books/articles/insights in front of the Director,faculty and students of the Institute wherein they demonstrate how they are making their subject delivery interesting for the students and relevant to current market needs. In addition they would get constructive suggestions from fellow faculty members to deliver the course in best possible manner. This is an classic example of 360 degree evaluation and internationalization of the quality

endeavors. The Practice: At the end of the Academic Year every faculty is asked to prepare a competency matrix including the list of subjects of their expertise and the subjects they have taught for himself/herself which is then vetted by the Director. Based on competency matrix, 45 days before beginning of the semester, subjects are allotted to the faculty and they are asked to deliver the session on a particular topic from the subject in presence of faculty members and students of the Institute. The delivery of the faculty is judged on the following parameters:-

- Contents
- Citing industry case studies
- Application Orientation
- Padagogy encouraging learners participation
- Communication and body language
- Giving take home messages for further study.

The faculty is then given constructive feedback on the above parameters and asked to prepare the course delivery keeping in mind the above parameters as well as expectations and interest of the students. As a follow-up sub practice in every faculty meeting 2 faculty members by rotation are asked to present the latest developments in their domain. This practice also helps them to keep updated with the latest practices and trends in the industry to be shared with the students in the class. This practice is unique and healthy in the scene that the faculty members get sufficient time and input to prepare their delivery thus benefitting the students, faculty members as well as the institution. Evidence of Success: After implementation of this practice, not only the students but also the faculty members are satisfied as evident from the feedback. Faculty members have developed a habit of going well prepared for the lecture. The Knowledge quotient as well as employability of the students has improved as evident from the placement scenario. The Institute has got positive feedback from the parents and other stakeholders. Problems Encountered and Resources Required: Faculty had to be convinced to prepare the competency matrix. The faculty did not initially agree for giving Exposition Lecture for obvious reasons of feeling of being subjected to evaluation and scrutiny. Lots of discussions and counseling had to be done. The fellow faculty colleagues unwilling to give suggestions to faculty. There was a feeling that It is time consuming exercise and time has to be squeezed out of schedule. However later all the faculty members agreed that this is the right kind of exercise for creating learner centric environment. Best Practice 2 Title of the Practice: Sustainable Energy Management Practices Objective of the Practice: It aims at more efficient resource use and stewardship, with the goal of keeping the negative socio-ecological effects of resource use within reasonable bounds, to achieve and maintain optimum energy procurement and utilisation, throughout the organization and to sensitize the students towards environmental and emerging sustainability issues The Context: Increasing electricity consumption and rising electricity bill was major area of concern for the Institute. As it form one of the important constituent of utility cost, the institute was in a process to find out a way to inculcate the spirit of energy conservation, energy saving and reduction in the energy use. The monthly average electricity bill was in the range of Rs. 60000 to 80000.To explore and to sort out this issue, the students and staffs were exposed to energy problems through expert talks and then they were asked for strategies to save and conserve energy. The Practice: Considering the existing and future electricity needs, the college development authorities prepared the proposal to install Solar Power project of 50 KWP and completed the same within year's time. Under green and clean campus initiatives around thousands of trees of different varieties were planted inside and outside the campus. Awareness and Guidelines related to energy saving practices generated among staff, students and faculty. The systems and processes set up for the periodical regular cleaning, servicing of solar panels, electrical equipments. Existing tubes and bulbs were replaced by Led bulbs and Tubes to save energy. Wherever required, the circuit breakers or energy saving equipments installed. Evidence of Success: 1.70 to 80 saving in electricity consumption 2.The substantial reduction in heat intensity owing to the tree plantation especially during summer season 3. Considerable reduction

in paper use at campus. Problems Encountered and Resources Required: Initially it was a very difficult to break the habitual practices of using the electricity and papers. The overcoming the behaviour and psychological issue was a major challenge. The frequent supervision, monitoring and follow up, ultimately, the institute get success in developing energy saving practices.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

'Utilising and applying the techno managerial knowledge and skills for the total upliftment of the society in general and rural and regional masses in particular' is the part of our Institute's mission. There are around 171 villages in Sangamner tehsil of Ahmednagar district of state of Maharashtra. Keeping in tune with the institute's mission statement, the institute has adopted Khandeshwar village. This village adoption aims at (i) Instituting socially useful action and (ii) application and sharpening of the professional competence of faculty and students for the practical utility of the community in need and getting sensitized to the changing rural realities. After discussion and deliberations with the Grampanchayat Samiti of the village, the institute identified key priority and thrust areas wherein institute can utilise their skills and expertise in village development and make socio economic impact. The institute has taken several initiatives as a part of strategic plan viz Tree plantation, Girl's Education, Career Guidance, Women empowerment, Gender discrimination etc which matches with the priorities of the village development. Under the environmental sustainability initiative, the institute in participation with Village committee developed a tree plantation plan which includes selection of plants, land scaping, water management, plantation and protection. Under health initiative, organised a Primary health check up medical camps for the village women to determine their health level and suggested diet plan for their health improvements under the expert's guidance. Under village girl education initiatives, institute organised various workshops, seminars on soft skill development, career planning career guidance. Their psychometric test conducted to determine their career potential and make them aware about the career opportunities after 12th standanrd, after graduation and so on. Spreads awareness about girl's education, child marriages and about initiatives taken by the government to end violence and sexual assaults against women. Different faculty and students are assigned different roles and responsibilities to be executed on periodical basis to implement the village level strategic plan under the leadership of Director and the programme coordinator appointed for effective implementation and execution of the plan in collaboration with the village grampunchyat committee.
